HUNGER IS HERE.
The face of hunger has changed in Georgia. The latest data tells us that 1 in 5 Georgians is food insecure, meaning that they don’t always know where they will find their next meal. This is well above the national average. Most disturbing is that 1 in 4 of our children is living in a food insecure household. This means that over 700,000 children in Georgia are in need in the wealthiest nation in the world. Unemployment and underemployment continues to drive the demand for food in Georgia with almost 30% of people served through our partner agencies seeking help for the first time in their lives.

Georgia Mountain Food Bank (GMFB) is an emerging North Georgia nonprofit whose mission is to address hunger throughout our five county service area. Our trucks and distribution warehouse serve as vital links between sources of surplus food supplies and hardworking community-based partner agencies who feed our hungry neighbors.

Each month 35,000 people are given food and hope through the efforts of our partner agencies. There are still gaps to fill, and we need your help. We hope you’ll share our passion and vision and invite you to join us “til no one is hungry”.

Sincerely,

Kay Blackstock
Executive Director, GMFB
